

# EVOLUTIVE PANT

#Diy

**LEVEL OF DIFFICULTY**

Easy. Basic knowledge of a sewing machine.

**TIME REQUIRED**

About 1 hour

**SEAM ALLOWANCE INCLUDED**

1 cm (3/8 in)

## REQUIRED MAERIALS

- Scissors or rotary cutter
- Jersey knit 95% cotton / 5% Spandex

	Solid Colour	Two-tone Model - Leg	Two-tone Model - Bands
Size A (newborn to 6 months)	50 cm (20 in)	25 cm (10 in)	20 cm (8 in)
Size B (6 months to 3 years)	65 cm (26 in)	40 cm (16 in)	35 cm (14 in)
Size C (2 to 5 years)	75 cm (30 in)	45 cm (18 in)	65 cm (26 in)

## A PIECE OF ADVICE BEFORE STARTING

Once your pattern is printed, make sure the 1 in (2.54 cm) square is the right measurement.

The assembly is entirely done using a 4-thread serger. If you don't have access to a serger, you can do a narrow and short zigzag stitch as well as a regular zigzag stitch at the edge of your seam allowance for a nice finish.

Use a stretch needle.

## MEASUREMENTS OF FINISHED PRODUCT

	Size	Hips	Length
Size A (newborn to 6 months)	39 cm (15 ¼ in)	48 cm (19 in)	37.5 cm (14 ¾ in)
Size B (6 months to 3 years)	43 cm (17 in)	52 cm (20 ½ in)	63 cm (24 ¾ in)
Size C (2 to 5 years)	51.5 cm (20 ¼ in)	62 cm (24 ½ in)	70 cm (27 ½ in)

# STEPS

1 cm (3/8 in) seam allowance included

**1-** Cut the front/back piece twice, the ankle piece twice and the waistband once. I suggest using weights to secure the knit while cutting, as it will tend to stretch.

	Size A		Size B		Size C	
	Grainline	Stretch Direction	Grainline	Stretch Direction	Grainline	Stretch Direction
Ankle Cuffs	18 cm (7 in)	15.25 cm (6 in)	35 cm (13 ¾ in)	22.5 cm (9 in)	32 cm (12 ½ in)	27 cm (10 5/8 in)
Waist Band	18 cm (7 in)	41 cm (16 ¼ in)	26 cm (10 ¼ in)	45 cm (17 ¾ in)	32 cm (12 ½ in)	53.5 cm (21 in)

**2-** Right sides together, sew the sides of the pant by putting together the front and back pieces using the serger.

**3-** Right sides together, sew the crotch in a single seam using the serger.

**4-** Fold the ankle cuffs in half along the stretch direction, right sides together. Sew the sides to create tubes, using the serger.

# STEPS

1 cm (3/8 in) seam allowance included

**5-** Fold the waistband in half along the stretch direction, right sides together. Sew the side to create a tube, using the serger.

**6-** Fold the waistband and ankle cuffs in half, wrong sides together to hide the seams.

**7-** Make sure the pant part is wrong side out. Insert the ankle cuffs in the pant part, placing the edges where the ankles are going to be joined, right sides together. Connect the cuff seams to the seam of the crotch. Assemble, with the serger, both ankle cuffs, stretching along the way, as the openings are smaller than the ones of the pant itself.

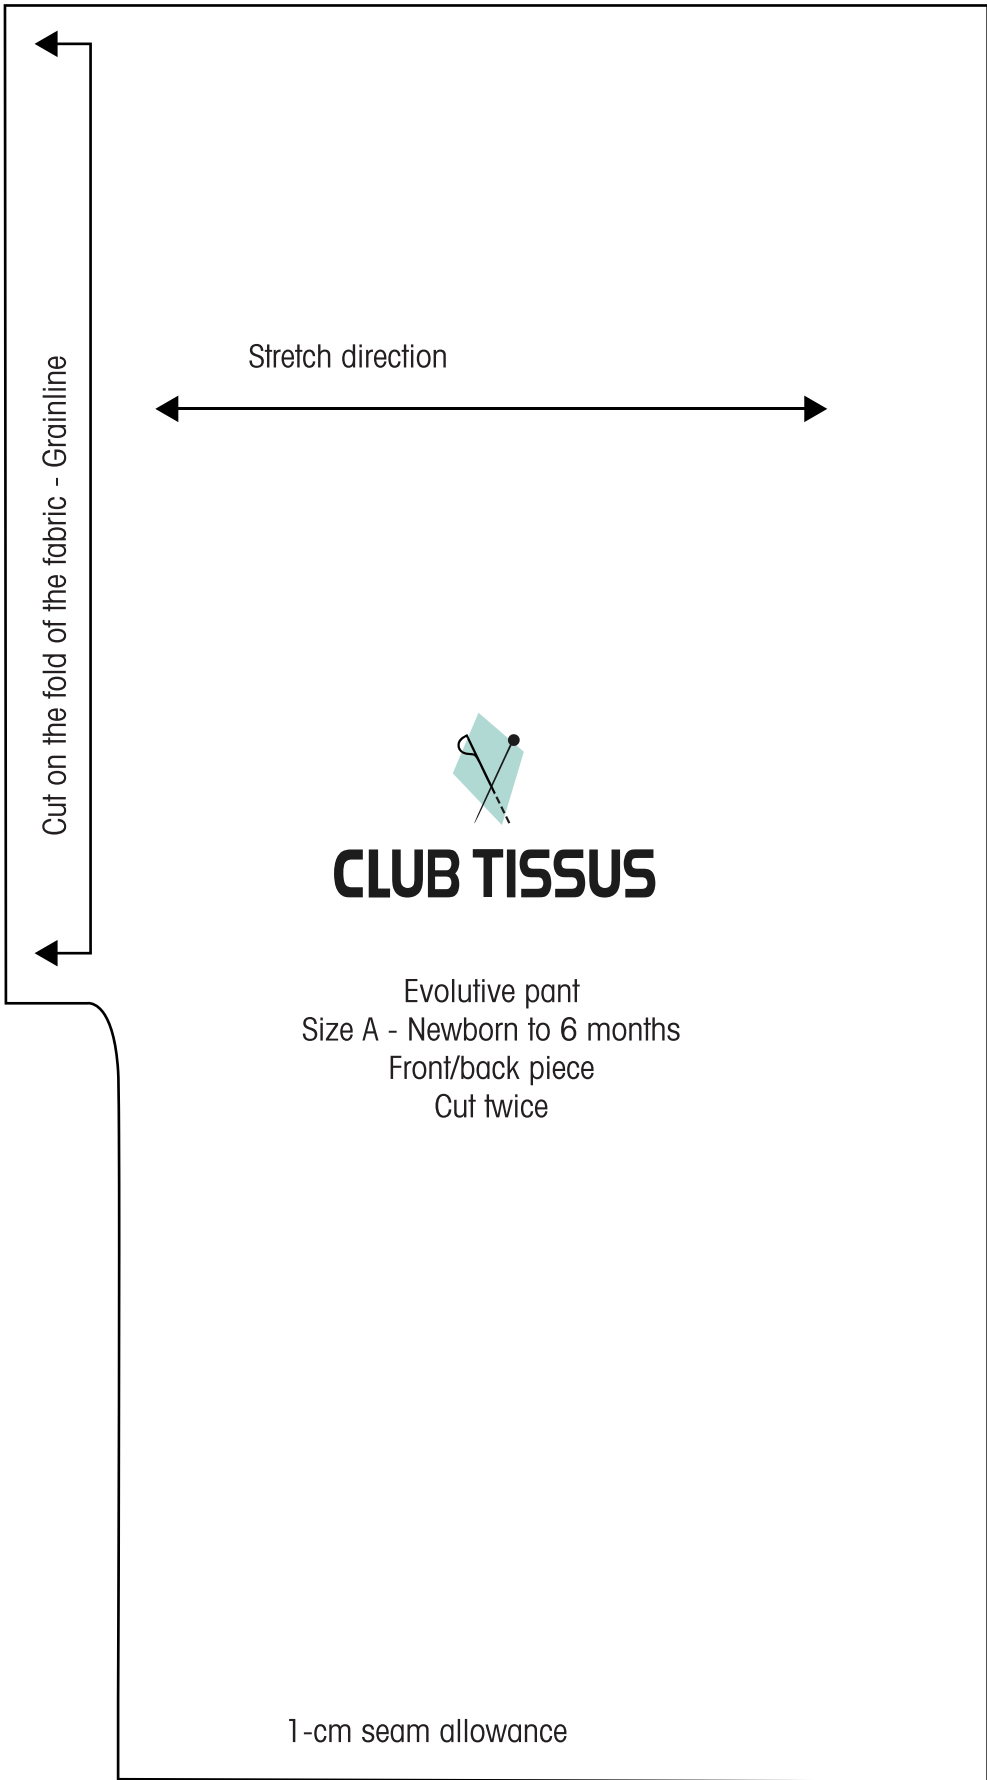

**8-** Similarly to the previous step, insert the waistband in the pant part right sides together. Align the waistband seam with the centre of the back, and the side notches marked on the pattern with the side seams. Assemble, with the serger, the waistband, stretching along the way, as the opening is smaller than the one of the pant itself.

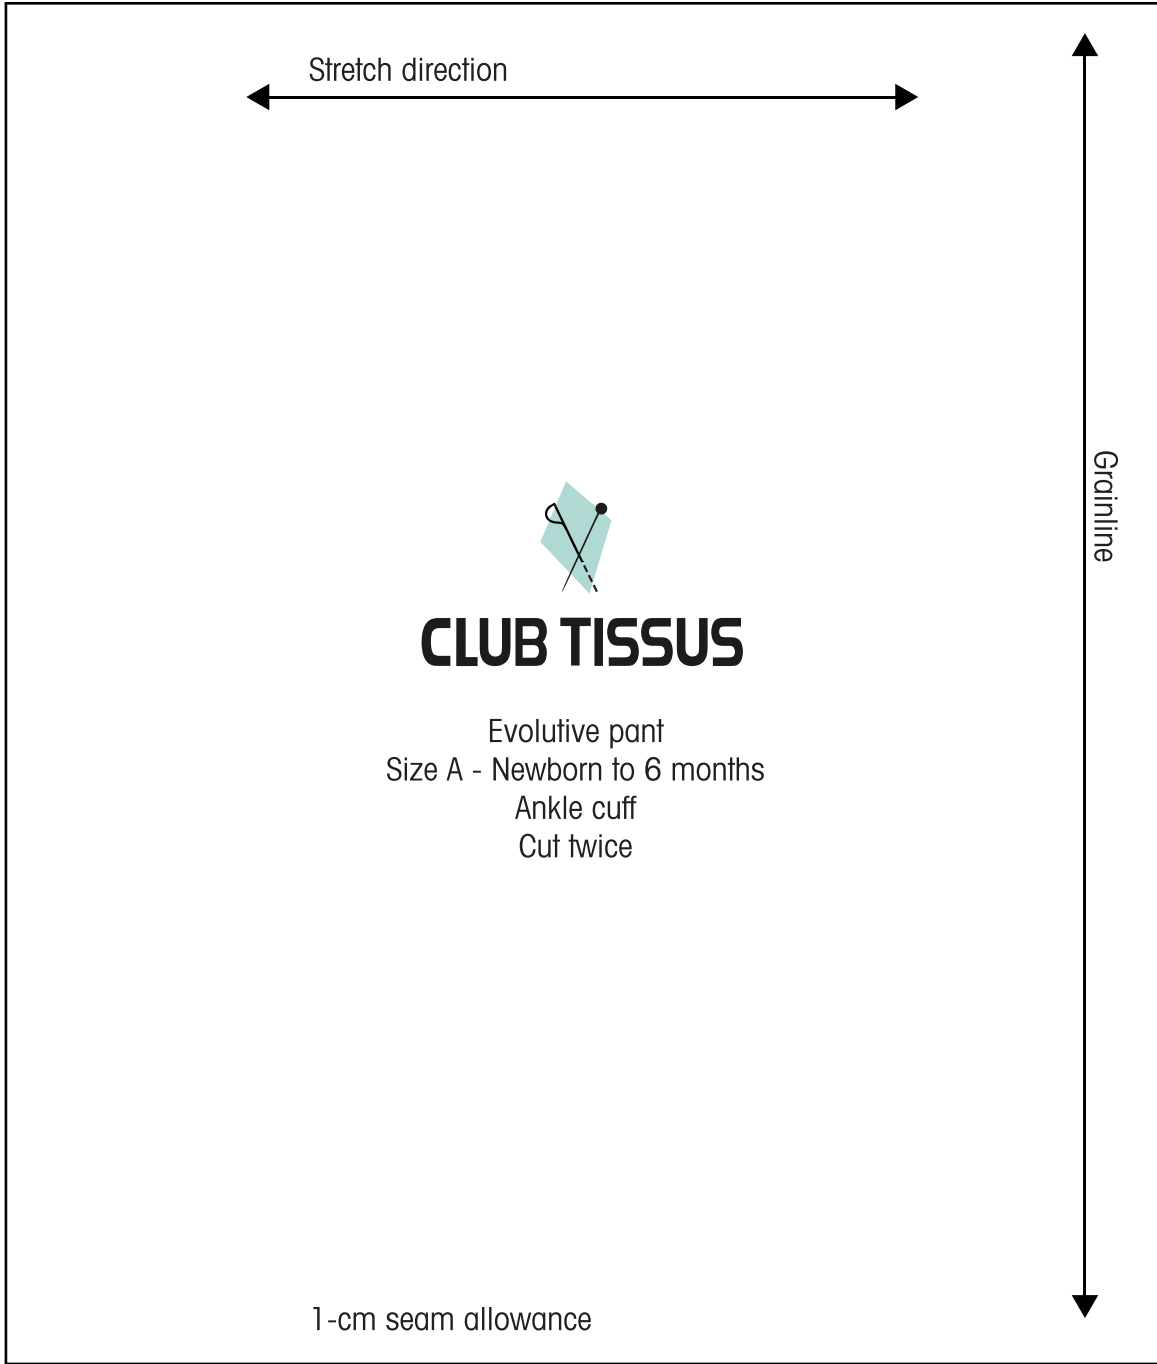

The only thing left to do is turn it right side out, and you're done!

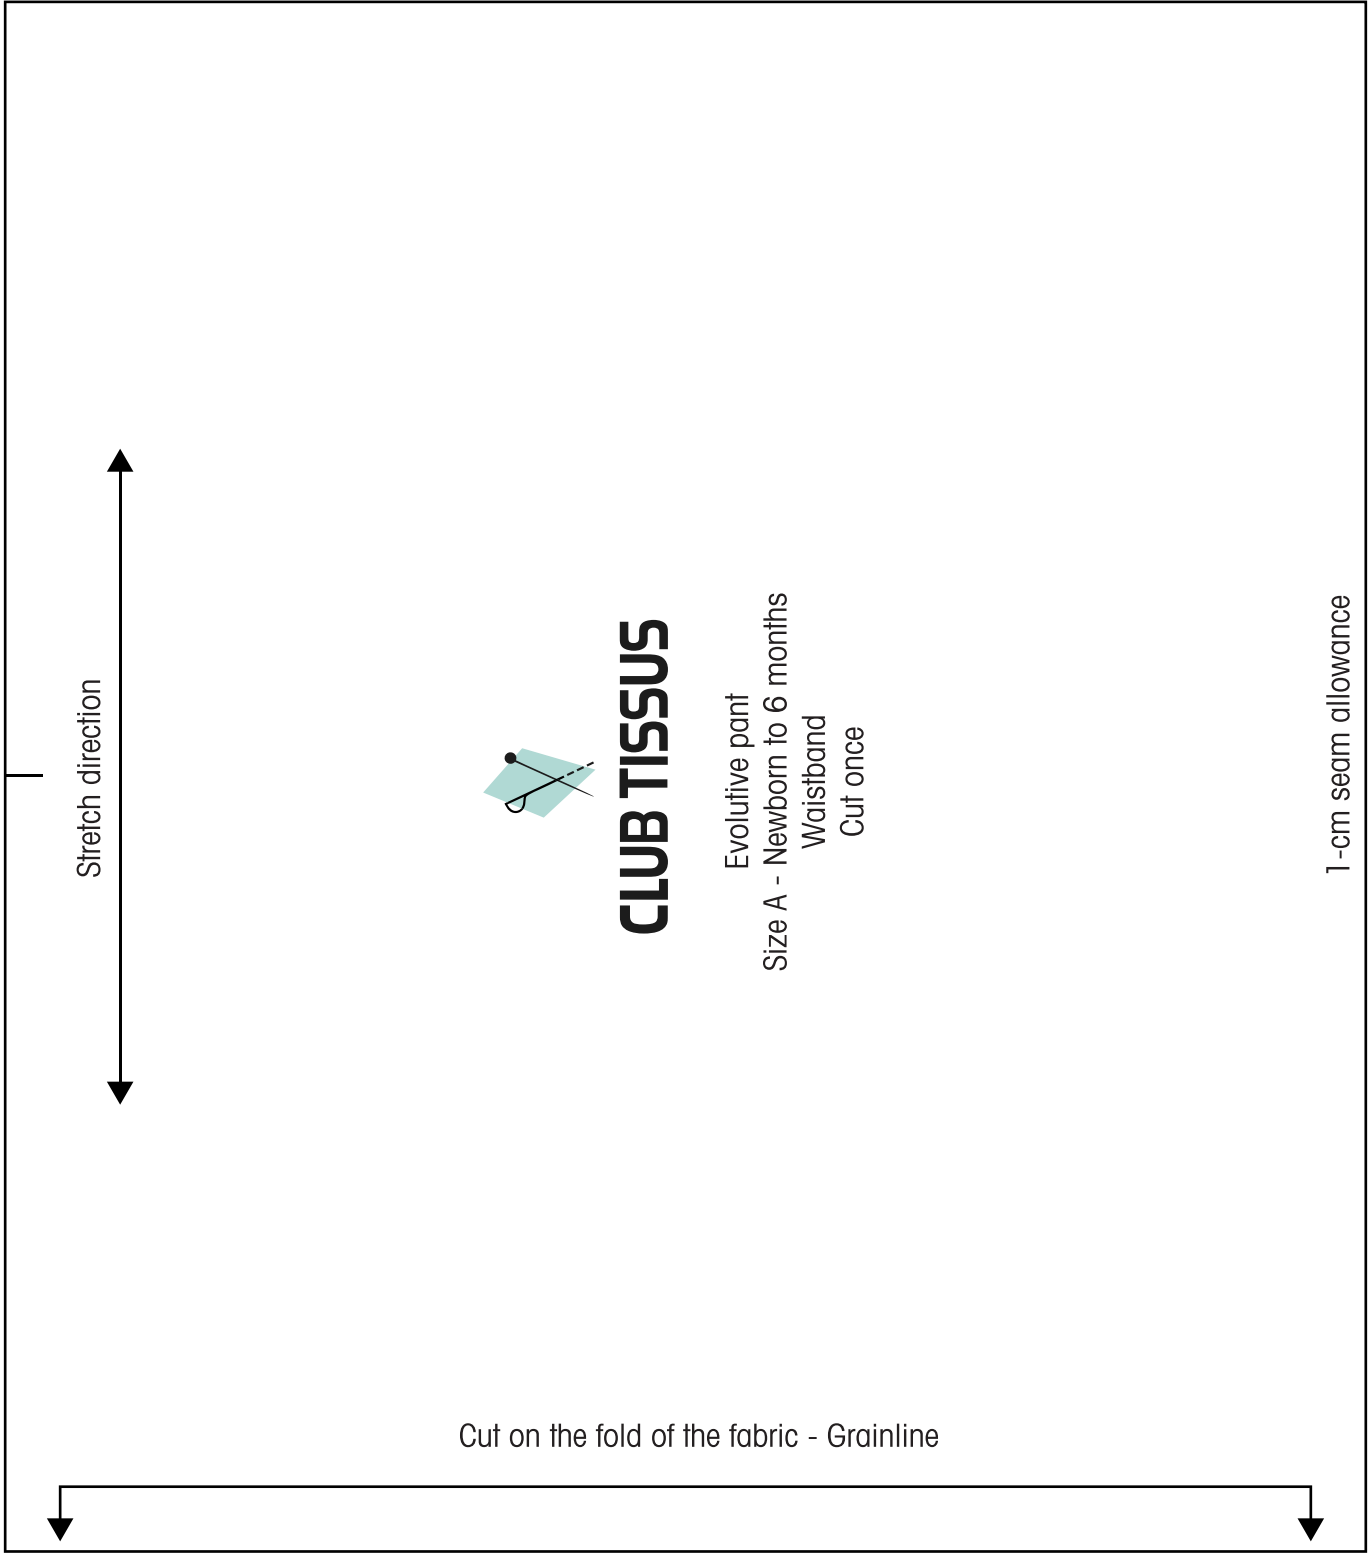

*Psst.*
